

Indian Geography

Books Content- With Page Numbers

Part No	Topic	Page Index
1	Physical Setting	6
2	Natural Resources and Environment	91
3	Economic Geography and Development	171
4	Human Geography and Cultural Landscape	245
5	Regional Planning and Contemporary Issues	361
	Total Pages (including Questions)	500 + Pages

Test Questions after every part with explanations

Part	Topic	No Of Questions
1	Physical Setting	20
2	Natural Resources and Environment	20
3	Economic Geography and Development	20
4	Human Geography and Cultural Landscape	20
5	Regional Planning and Contemporary Issues	20
	Total Test Questions	100

2. Indian Geography

Part	Chapter No. and Title
Part I: Physical Setting	1. India's Location and Strategic Significance
	2. Geological Evolution and Rock Systems of India
	3. Physiographic Divisions: A Comprehensive Overview
	4. The Himalayas: Formation and Structural Characteristics
	5. Himalayan Ranges: Greater, Lesser and Outer Himalayas
	6. Trans-Himalayan Ranges and Plateau Regions
	7. Major Himalayan Passes and Their Significance
	8. The Great Northern Plains: Formation and Characteristics
	9. Regional Divisions of Indo-Gangetic Plains
	10. Seismic Zones and Earthquake Management
	11. Coastal Regulation Zones and Marine Boundaries
	12. Glacial Systems and Climate Change Impacts
	13. Peninsular Plateau: Geological Structure and Relief
	14. Central Highlands and Malwa Plateau
	15. Deccan Plateau and Its Subdivisions
	16. Western Ghats: Physical Features and Significance
	17. Eastern Ghats: Characteristics and Economic Importance
	18. Thar Desert: Formation, Features and Ecosystem
	19. Coastal Plains: Western and Eastern Coastal Plains
	20. Andaman and Nicobar Islands: Formation and Features
	21. Lakshadweep Islands: Coral Formation and Characteristics
	22. Drainage Patterns and River Systems of India
	23. Himalayan River System: Indus, Ganga and Brahmaputra
	24. Peninsular River System: Godavari, Krishna, Cauvery and Narmada
	25. River Valleys and Their Economic Significance
	26. Indian Monsoon: Mechanism and Characteristics

	27. Seasonal Weather Patterns and Regional Variations
	28. Tropical Cyclones and Western Disturbances
	29. Floods and Droughts: Causes and Distribution
	30. Climatic Regions of India
	31. Natural Vegetation Types and Distribution in India
Part II: Natural Resources and Environment	32. Soil Types and Distribution in India
	33. Soil Formation Processes and Profiles
	34. Soil Degradation and Conservation Measures
	35. Forest Resources and Vegetation Types
	36. Forest Ecosystems and Biodiversity Patterns
	37. Wildlife Conservation and Protected Areas
	38. National Parks and Wildlife Sanctuaries
	39. Biosphere Reserves and Ecological Zones
	40. Mineral Resources: Classification and Distribution
	41. Metallic Minerals: Iron Ore, Manganese and Bauxite
	42. Non-Metallic Minerals: Coal, Petroleum and Natural Gas
	43. Minor Minerals and Building Materials
	44. Renewable Energy Resources and Potential
	45. River Water Utilization and Inter-State Disputes
	46. Watershed Management and Conservation
	47. Marine Resources and Blue Economy Potential
Part III: Economic Geography and Development	48. Agricultural Foundations and Land Use
	49. Cropping Patterns and Agricultural Intensity
	50. Major Food Crops: Rice, Wheat and Millets
	51. Cash Crops: Cotton, Sugarcane and Oilseeds
	52. Plantation Agriculture and Commercial Crops
	53. Irrigation Systems and Water Management
	54. Agricultural Productivity and Green Revolution
	55. Precision Agriculture and Technology Integration
	56. Food Security and Nutritional Geography
	57. Animal Husbandry and Dairy Development

	58. Fisheries and Aquaculture Development
	59. Agro-Climatic Zones and Crop Combinations
	60. Industrial Development and Evolution
	61. Iron and Steel Industry Location and Growth
	62. Textile Industry: Cotton, Jute and Synthetic
	63. Chemical and Petrochemical Industries
	64. Automobile and Engineering Industries
	65. Digital Economy and IT Corridors
	66. Information Technology and Service Industries
	67. Industrial Regions and Clusters
	68. Transport Networks: Railways and Roadways
	69. Multimodal Connectivity and Logistics
	70. Waterways and Port Development
	71. Aviation and Airport Infrastructure
Part IV: Human Geography and Cultural Landscape	72. Population Distribution and Density Patterns
	73. Population Growth and Demographic Transition
	74. Age Structure and Demographic Dividend
	75. Migration Patterns: Internal and Inter-State
	76. Rural-Urban Migration and Urbanization
	77. Linguistic Geography and Cultural Regions
	78. Religious Composition and Spatial Patterns
	79. Tribal Population and Tribal Areas
	80. Caste Geography and Social Stratification
	81. Settlement Types: Rural Settlement Patterns
	82. Village Morphology and Rural Landscapes
	83. Urban Settlement Patterns and City Types
	84. Metropolitan Planning and Mega Cities
	85. Metropolitan Cities and Urban Agglomerations
	86. Urban Planning and Smart Cities Mission
	87. Cultural Regions of India
	88. Folk Culture and Traditional Practices
	89. Communication Networks and Digital Infrastructure
	90. Trade Patterns and Commercial Geography

	91. Health Indicators and Social Development
Part V: Regional Planning and Contemporary Issues	92. Regional Disparities and Development Planning
	93. Panchayati Raj and Decentralized Planning
	94. Special Area Development Programmes
	95. Border Area Development and Security Geography
	96. Island Development and Maritime Strategy
	97. Disaster Risk Reduction and Management
	98. Sustainable Development Goals and Spatial Planning
	99. Electoral Geography and Delimitation
	100. Geopolitics of South Asia and Neighborhood Policy
	101. Geopolitical Aspects of Indian Borders
	102. Boundary Demarcation and Border Management
	103. Future Challenges in Indian Geography
